

- 3 Easy Steps
1. Click "Start"

2. Start Download

3. Browse The Web

## git push origin main error: src refspec main does not match any error: failed to push some refs to 'https://github.com/kebee123/personalBlog.s.git' code example

Example 1: src refspec master does not match any

```
#This is not my solution but one this have worked for me in different situation so i copied it
git init
git add . //to add everything
git commit -m ''
git remote -v
git push heroku master

//New
git config --global user.email "you@example.com"

git config --global user.name "Your Name"
# You are trying to add an empty repository, add something first, like a readme
touch README.md
git add README.md
git commit -m "Initial commit"
git push --set-upstream origin master
```

Example 2: error: src refspec master does not match any error: failed to push some refs to android studio

```
git commit -m "initial commit"
git push origin master
```
